

# Coming Up!

## Summer Landscapes Hands On Workshop June 27th Wichita Wildlife Reserve

We are fortunate to have "JJ" Jeff Johnson to come teach us his techniques for landscape photography. Jeff will show us his approach to his unique style of fine art imagery. Jeff will share his approach to pre-visualization and technique in the field as we all explore the fabulous Wichita Wildlife Refuge. He will cover the big and bold grand landscapes to the smaller, intimate views of nature. Plan on learning about lens selection, the exposure triangle, composition, depth of field and more. Make sure to bring your hiking shoes and leave the heels at home (or at least the hotel!).

The Homewood Suites by Hilton in Lawton is the location for this event. It is located at 415 SE Interstate Dr, Lawton, OK 73501 580-357-9800. There is no room block so each attendee can call to book their room on Saturday night, June 26th, and Sunday, if they wish to stay over that night. I would recommend going online and searching for the best deal to book the room as early as possible. This hotel traditionally books up earlier than most others in Lawton due to events at Ft Sill. \$119.00 is the normal room rate but it can be booked for over \$40 less online.

We will also have some classroom time at the hotel where JJ will share his digital workflow and how he edits and enhances his images. Plan on learning how he uses plug ins from NIK and Topaz to take images to the state of "breathtaking". In short, how to take our images from RAW to AWE!

This workshop is a steal at only \$139! PPA Continuing Education Merits will be available for any PPA member.
